

Student Destinations - 2020

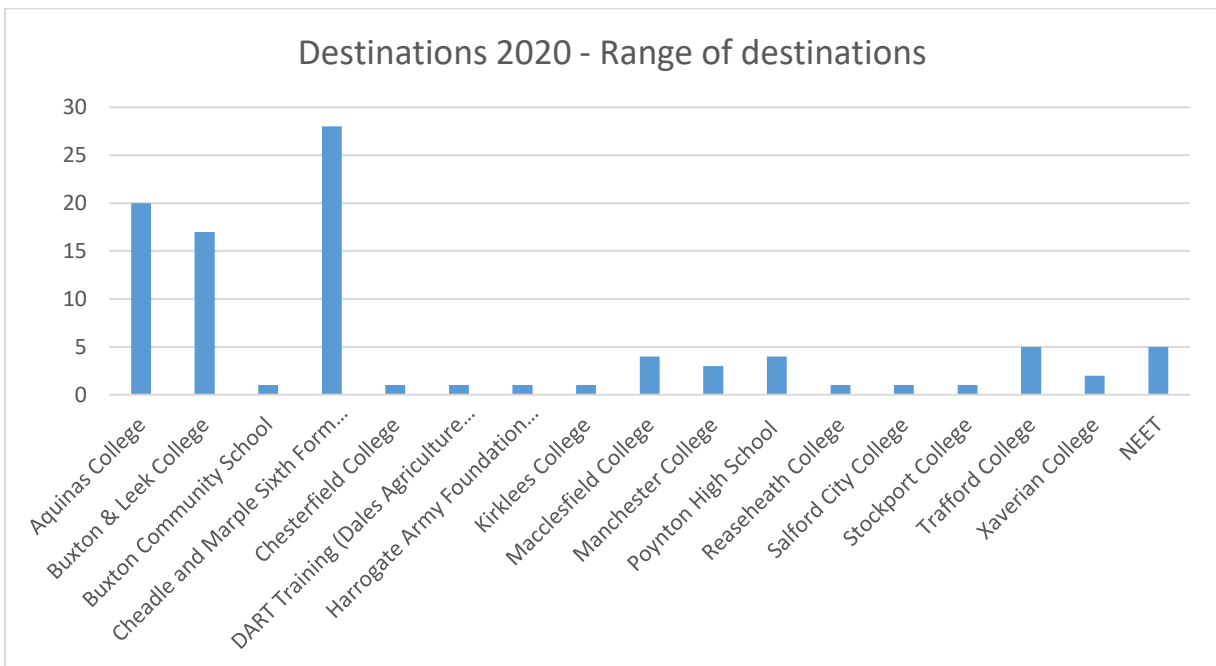

It was an extremely challenging year for our Year 11 students who were unable to sit any formal examinations. We are proud of the resilience that was shown in helping them to secure next step provisions. Well done to all our Year 11 leavers.

94.8% of our Year 11 leavers are currently continuing in either employment, further education or training. The remaining 5.8% of students are currently seeking employment, education or training.

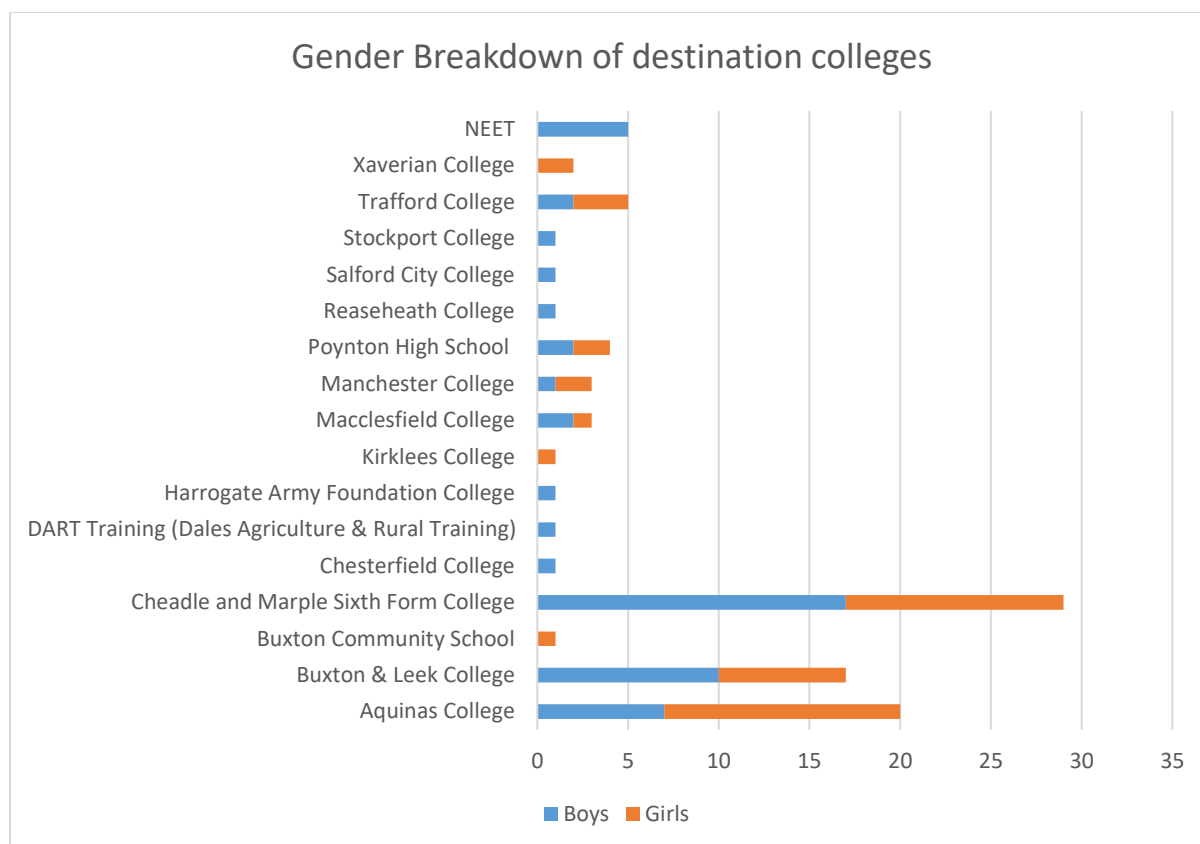

Out of the five students currently seeking employment, education or training, one student has secured a place in the Army and one student has an apprenticeship. However, due to the ongoing Covid-19 situation they are unable to start until later in the year.
