Dear Parents and Guardians,

RE: CRY CARDIAC TESTING AT: **Hayfield Primary School, Swallow House Lane, Hayfield, High Peak, Derbyshire, SK22 2HB on Saturday 19<sup>th</sup> and Sunday 20<sup>th</sup> October 2019.**

I am writing to you on behalf of the charity Cardiac Risk in the Young (CRY) in order to let you know about a cardiac screening programme for people aged **14–35 years old**, which will be held at Hayfield Primary School on the Saturday 19<sup>th</sup> & Sunday 20<sup>th</sup> October 2019. This is funded and in memory of Charlie Craig MF.

CRY's mission is to identify those that are at risk from sudden cardiac death. Sudden death syndrome is an umbrella term for the many different causes of young sudden cardiac death. These conditions include thickening of the heart muscle or an abnormal structure of the heart, and irregularities of the impulses that control the rhythm of the heart. Youngsters involved in sport, in particular, stress their heart the most and if they have an underlying cardiac abnormality, they are more likely to be at risk. It is important to emphasise that exercise is **NOT** harmful and sport itself does not cause cardiac arrest, but can exacerbate an undetected condition.

At a screening, your son/daughter will receive an electrocardiogram (ECG) that examines the electrical activity of the heart, and if required, an echocardiogram, as well as a physical examination. The ECG is a simple, non-invasive and painless test that will only take a few minutes to complete and is performed by qualified cardiac physiologists.

The ECG results will be examined by a doctor in conjunction with a personal and family history questionnaire, and if a more detailed picture is needed some individuals will be required to undertake a follow-up echocardiogram. This is an ultrasound scan of the heart that looks at its size, structure and blood flow and takes about 30 minutes to perform. All results suggesting an abnormality will then be passed to CRY Consultant Cardiologist Professor Sanjay Sharma, a leading expert on inherited cardiac conditions.

If you would like to have your son/daughter screened, you should complete the following:

1. Visit [www.testmyheart.org.uk/private/](http://www.testmyheart.org.uk/private/)
2. Find **Hayfield Primary School** listed for the **19<sup>th</sup> & 20<sup>th</sup> October 2019**. Click Register.
3. The password for this screening is **HPS2019** .
4. Select a time slot and click 'register now'. (You can book up to 3 appointments at one time.)
5. Fill in the required details on the health questionnaire – this will take approximately 15 minutes.
6. **Once the appointment is booked, you will receive a confirmation email; this will include a consent form. Please download the document, read carefully before completing and take it with you on the day.**

If you would like any additional information about cardiac screening please visit [www.c-r-y.org.uk/cardiac-screening](http://www.c-r-y.org.uk/cardiac-screening). Alternatively, please contact a member of the CRY screening team on [ecg@c-r-y.org.uk](mailto:ecg@c-r-y.org.uk) or call **020 3691 0000**.

Yours faithfully,

Dr Steven Cox  
Chief Executive  
Cardiac Risk in the Young
